MEMORANDUM FOR: Don Gregg  
SA/DO/O

FROM

:

[REDACTED]  
Assistant Legislative Counsel

SUBJECT

: Requests by Representative Bob Wilson  
(R., Calif.)

1. (C) Pat Long, of the House Permanent Select Committee on Intelligence staff, called today with the following requests from Representative Bob Wilson:

a. He would like to talk to an "expert" on terrorism from the Agency. He is interested in the subject generally and this request does not apply to any specific area.

c. He would like to know whether there is an established underground pipeline to get dissidents out of the Soviet Union.

2. (C) While there is not a precise deadline on these requests, I would like to be able to get back to Pat Long within the next day or two with at least interim answers or guidance to him. I suspect that someone in the Agency has done some work on terrorists' profiles; hopefully the people who work on terrorism in the DDO will know who it is.
